
TITLE: Student Employment on Campus
ADOPTED DATE: February 16, 2021
EFFECTIVE DATE; February 16, 2021
SUPERSEDES: February 7, 1984

PURPOSE:

The primary purpose for a student employment program on-campus is to help students gain meaningful employment and professional experience in an organization focused on their educational well-being.

POLICY:

This policy permits the employment of students enrolled in RCBC credit-based coursework.

The institution supports two types of student employment: Federal Work-Study and institutional student employment. Federal Work Study funding is determined as a result of the financial aid process, and is restricted to students who are awarded it as part of their financial aid package; while institutional student employment is open to any enrolled student pending departmental budget.

Departmental procedures and processes regarding student employees are reviewed annually, and any changes are approved by the appropriate Vice President.
